

# CAUK NEEDS YOU

CAUK are changing the personal stories on our website  
- and we need your help!

## Whats Your Story?

Would you like to share your experience, strength and hope in a small piece to be included on the website?

As Cocaine Anonymous in the UK continues to mature and come of age we are looking to show our diversity, both in the drugs we used and our backgrounds, to clearly show that C.A. is all inclusive and all encompassing - never exclusive.

Your story should show in a general way what you used to be like, what happened and what you are like now.
